

## Addendum – Corrections & Clarifications

10/08/2018

### **Corrections:**

Pg 10 (Construction Technical Specifications d. )

Where buried, Carrier shall place fiber into a 2" SDR11 High Density Polyethylene (HDPE) Pipe. Dual Entrance is preferred...

Pg 11 (Attachment B Table 1).

Fire Station 2 Site Address: 6925 W Maple Rd

### **Clarifications / Questions:**

Q. Will the consultant provide the dark fiber, or will the Department need to procure dark fiber separately?

A. The installation will be by a vendor other than the consultant. The consultant will build an RFP for the installation work and help select an installation vendor who will provide the labor and material.

Q. How long does the consultant have to provide the design and plan?

A. 120 days

Q. When does the department want the fiber to be installed by?

A. June 1, 2020
