

New Name. Same Great Service.

Rizzo Environmental Services is now GFL Environmental USA Inc.

To our valued customers,

On September 30, 2016, Rizzo Environmental Services officially became part of GFL (Green For Life) Environmental. As a result of this transition, I would like to take the opportunity to introduce you to GFL and assure you that there will be no interruptions or impediments to the quality of the service that you have previously come to expect from Rizzo.

I am proud of GFL's heritage and the strong culture, work ethic and business philosophy that we have become known for in the waste management and recycling industry. For over 40 years, GFL and its predecessors have been pioneers in providing businesses and residential customers throughout North America with exceptional environmental services while simultaneously focusing on safety and local community values.

Going forward, our more than 700 talented employees who call Michigan home are committed to providing you with personalized service. I want to personally assure you that existing rates and contracts made with Rizzo Environmental will be fully honored by GFL.

On behalf of the entire GFL team, thank you for your business. We look forward to working with you and serving your local waste management and recycling needs. In the meantime, if you have any questions regarding GFL or an existing service performed by Rizzo Environmental, I encourage you to call us directly at our toll-free number — **1.844.GO.GFLUSA** — or visit our website at gflusa.com.

Sincerely,

Patrick Dovigi
Founder and CEO
GFL Environmental USA Inc.
