

# CONSTRUCTION ADVISORY NOTICE

**West Bloomfield Township – SAD #161 – Rutledge Park - Roadway Improvement Project**

May 18, 2018

Dear Homeowner,

We would like to take this opportunity to advise you of recent developments with respect to the West Bloomfield Township SAD #161 – Rutledge Park – Roadway Improvement Project.

As you are aware, construction of the proposed Roadway Improvement Project is currently underway and progressing well. The contractor has been performing the required full depth roadway repairs by removing half of the roadway, and leaving the other half open to traffic.

**Beginning Monday, May 21<sup>st</sup> (weather permitting) the contractor will begin installation of the new asphalt base in the full depth pavement repair areas. This installation will take approximately 2-3 days. Once the installation of the new asphalt base has been completed, the contractor will adjust their traffic control measures and allow vehicle traffic to drive on the new pavement. At that time, the contractor will then begin demolition of the second half of the required roadway repair areas. Additionally at that time (approximately Wednesday, May 22<sup>nd</sup>), residents that have had their driveway access impacted by the first half of the construction project, will be permitted to drive over the new curb and park their vehicles back in their driveway.**

The Construction Inspector from Nowak & Fraus Engineers will notify any impacted residents of the second half of the construction project, if access to their driveway will be restricted, prior to closing down their driveway, and advise of acceptable alternate parking areas along the roadway. Any on-street parking of vehicles will be prohibited within the area of construction. Residents will be directed to park along ONE side of the roadway, outside the project limits (potentially Ledgeway Drive, Rutledge Park Court, Wynford Drive or Winchester Road)

Mail delivery, garbage collection and emergency vehicle access will be maintained throughout the duration of the project.

If there are any specific concerns or questions regarding the project, please feel free to contact Jason Longhurst, of Nowak and Fraus Engineers at 248-332-7931 or Pamela Sych, of West Bloomfield Township at 248-451-4815. Additionally, project information will be continually updated on the Township Website at the link below:
