

Jim Nash

January 10, 2017

Dear Resident/Property Owner:

The Oakland County Water Resources Commissioner's office, in cooperation with West Bloomfield Township, soon will begin construction in your area on the Heron Drain improvement project.

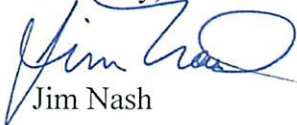

Drainage improvements will be made by installing concrete pipes and drainage structures along the east side of Middlebelt Road, just north of Long Ridge Court to alleviate flooding. I have enclosed a map showing the locations of the improvements.

I want to assure you that every effort will be made to minimize any inconveniences to you and other residents. While a portion of the work will occur along the existing road rights-of-way, the other portions of the work will occur on private property. It is anticipated that the initial phase of the work will occur over the next six-to-eight weeks. Due to weather conditions, final lawn and landscaping restoration will not be completed until the next growing season. Driveways and streets will be kept useable during this construction period. I will have a full-time inspector on site during construction to make sure the construction operations run smoothly.

For additional information, or if you have construction-related issues, please contact my construction inspection crew at 248-858-1105. By calling this number directly instead of contacting township offices, you will be ensured of a more timely response.

In closing, I want to thank you in advance for your patience and cooperation during this project. It is greatly appreciated.

Sincerely,

Jim Nash

c: Marshall Labadie, Development Services Director, West Bloomfield
