Position: Engineering Manager

Department: Planning & Development Services

Salary: $66,495.00 to $91,494.00

General Summary:
Responsible for managing the activities of the Engineering area of the Planning & Development Services Department. Supervises inspectors and project management analysts and other staff as may be assigned in technical activities related to design, review, construction, permitting and direction of all engineering and township facility related projects. Performs engineering review and approval on construction projects within the Township. Responsible for infrastructure planning, permits, recordkeeping, mapping (GIS), construction supervision, and administration of contracts with RCOC, OCWRC and other project specific contracts. Duties delegated or assigned by the Director of Planning & Development Services are carried out with considerable independence and latitude with the Director being consulted on policy issues and unusual situations. Schedule work activities and monitors assignments in progress and upon completion, to assess quantity and quality of work. Work is evaluated through review of reports, activity summaries and assessment of Township operations, effectiveness and efficiency.

Qualifications:
- Bachelor Degree (BBA) preferably in Civil Engineering, Construction Management or related Engineering discipline. REQUIRED
- Possession of a Certificate or Registration as a professional engineer issued by the Michigan State Board of Registration.
- Five or more years’ experience in progressively more responsible municipal or public works administration or Engineering.
- Two or more years of experience in supervision preferred.

Applications can be obtained from our web-site: http://wbtownship.org/jobs, at the Human Resources Department, 4550 Walnut Lake Road, West Bloomfield or by calling (248) 451-4795. Applicants must complete an employment application to be considered for this position. Completed applications can be sent to resume@wbtownship.org.

Position is open until filled.
